TO OUR "RED BOOK" SUBSCRIBERS

This letter is attached to the first section of "1956 Financial Statistics of Canadian Municipal Governments" prepared by the Institute. Along with the cover is included the Index, the Newfoundland statistics for 1955, and the complete Ontario section. The printing of these pages has been somewhat delayed due to the pressure of work at the printers aggravated by the prevalence of the "flu." It is expected that the remaining portions will be in your hands more promptly.

Subscribers will note in the Ontario section that all Metropolitan Toronto municipalities, irrespective of size, are grouped together at the beginning of the pages for Ontario cities. While only Metropolitan Toronto issues debentures for itself or its member municipalities, the individual member municipalities are, in the first instance, still responsible for their own debentures not assumed by the Metropolitan Corporation, and for Metro debentures issued for the particular benefit of those municipalities. The debt shown for Metropolitan Toronto is its direct responsibility only, and is provided for by levies on member municipalities proportionate to their respective total assessments.

This summer the results of the Dominion census of 1956 were made available, allowing the Institute an opportunity to check its listings of municipalities. As a result some larger municipalities will be included for the first time, notably some Alberta districts. As an indication of the continued urban expansion, the number of Ontario municipalities in the "town" class dropped only from 129 to 124, in spite of the raising of the lower population limit from 2,000 to 2,500, whereas the number of municipalities included in the "city" class, over 10,000 in population, increased from sixty-six to seventy-six.

In connection with census figures, a problem arises from inclusion in this count of military personnel, institutionalized persons, and certain other "temporary" residents not usually included in the population statistics compiled by municipal assessors. The Institute has noted where adjustments have been made in the census figures so as to provide data comparable to that of former years. If subscribers have questions about this or other aspects of the statistics they are invited, as in the past, to make inquiries of the Institute.

Yours truly,

Angus Murray

1956 FINANCIAL STATISTICS
CANADIAN MUNICIPAL GOVERNMENTS

THIRTY-EIGHTH YEAR OF PUBLICATION - 1957 ISSUE

FOREWORD

This is the thirty-eighth edition of *Financial Statistics–Canadian Municipal Governments*. In compiling these statistics the Institute has sought not only to provide in one report financial data on municipalities from all the Canadian provinces, but to publish figures that permit comparison between individual municipalities. Apart from changes resulting from new information, the Institute also aims to present figures comparable with those given in previous issues.

Publication of the findings of the 1956 Dominion Census provided the Institute with an opportunity to check and review its coverage of municipalities. For the larger municipalities it was decided to include more of the municipalities with populations of over 10,000, whether or not they were unquestionably urban in character. In view of the continuing difficulty in obtaining complete information for the smaller urban centres, it was decided to exclude those with populations under 1,000. In previous issues, the report covered urban municipalities over 600 in all provinces except Quebec. In that province, because of difficulty in gathering some of the required information, complete coverage can be provided for only the larger cities.

Revisions were made elsewhere in the coverage. All British Columbia Districts over 1,000 are included, and all Manitoba rural municipalities over 2,500. This latter revision has increased the number of municipalities listed from 21 to 34. As in former years, all counties in Ontario and New Brunswick and "municipalities" in Nova Scotia have been included.

While great improvement has taken place in the administration of municipal governments in Newfoundland, the statistics from that province continue to be one year behind the data for other parts of Canada.

School Authorities and Other Special Purpose Bodies

In its definition of municipal governments the Institute has always included school boards, utility commissions and other special-purpose bodies like sewerage boards and hospital districts. In some provinces, reports of municipalities and of departments of Municipal Affairs often do not include data on these public bodies whose areas of jurisdiction may overlap those of municipal corporations. The Institute endeavours to obtain information on such items as school and utility debts attributable to the areas included within municipal boundaries. Where boundaries do not coincide, breakdowns of known debts are not always readily available, and in some cases the existence of overlapping debts is not generally acknowledged. Where it has been possible to include such data with that directly acknowledged by a municipality, references to the specialized bodies are generally made in footnotes.

The layout of the material in this issue is generally the same as last year's. All suburban and semi-urban municipalities are listed with urban centres in the appropriate category of population groupings: (1) over 10,000; (2) 2,500–10,000; and (3) 1,000–2,500. For each grouping in turn, municipalities in the Western provinces are reported first, and then proceeding eastward, the centres in other provinces are listed. A special page on Newfoundland municipalities is provided for all places except St. John's and Cornerbrook, which are included with the Maritime centres over 10,000 population. Data on Manitoba rural municipalities, Ontario and New Brunswick counties and Nova Scotia municipalities are presented on the final three pages.

For many of the larger municipalities, rush-release statistics were sent out to subscribers in mimeographed form in advance of publication of this "Red Book." Subscribers are invited to write to the office of the Institute for the latest information in the Institute files, obtained from financial reports and completed questionnaires from municipal governments, or from data provided by provincial authorities. Toronto subscribers may make inquiries by telephone by calling WAlnut 4-9717.

With the continual growth in complexity of local government financial affairs, in part accounted for by the extension of provincial and federal aid to municipalities, the assembling and interpretation of municipal statistics has become more challenging with the years. The Institute wishes to thank the municipal treasurers and clerks, school board treasurers, and officials in provincial departments concerned with local government statistics, for their excellent co-operation in supplying necessary information. To the subscribers who continue to make possible the publication of this unique national compilation of municipal statistics go our thanks for their continued support and unstinting forbearance.

(T.) Town.

(1) School taxes are collected by municipality.

(2) Under the Protestant School Board of Greater Montreal: the statistics shown for Montreal are for this Board. The assessment includes all the neutral panels. The approximate distribution of school board levy for the municipalities on this page is as follows: Dorval, 1.9%; Lachine, 3.7%; Lasalle, 1.2%; Montreal, 64.9%; Montreal North, 0.6%; Mount Royal, 4.7%; see footnote 3 on page 20. In addition, there are other municipalities which raise approximately 5.9% of the levy.

(3) Part of a county school board, no data available.

(4) Provincial grant.

(5) Includes neutral panel assessment of $607,547,626 and levy of $7,865,256.

(6) Total debt of Montreal Catholic School Commission.

(*a*) After deducting reserve for non-collection.

(*S*) Surplus. (*D*) Deficit.

(1) Not available.

(*a*) Excludes municipalities separate from the county (cities and separated towns).

(*b*) Value of property liable for taxation by the township, village or town within whose limits it lies.

(*c*) Levy on the various municipalities within the county and not directly on individuals.

(*d*) As county rates need not be paid until December 20 (after which interest is charged), it frequently happens that a considerable amount of taxes unpaid at December 31 may be paid at a date early in the next year.

(*e*) As far as can be ascertained none of these debts is for public utilities.

(*f*) Includes debt assumed from, but excludes debt assumed by, other municipalities.
